A hand-drawn sketch of a mobile application interface for a login or account setup screen. The screen is enclosed in a rounded rectangle with a thick black border. At the top, there is a status bar with a grey background, containing icons for Wi-Fi, cellular signal, battery, and the time 20:01. Below the status bar, the main content area is white. It features two input fields: the first is labeled 'Username' in black text, and below it, the text 'Email only' is written in red. The second input field is labeled 'Password' in black text and includes a small eye icon on the right side. Below the password field is a blue, underlined link that says 'Forgot your password?'. A green rectangular button with the text 'Sign in' in white is positioned below the link. Further down is a red rectangular button with the text 'Login with Google' in white. At the bottom of the screen, there is a checkbox followed by the text 'Terms and Conditions'. The entire screen is framed by a black outline representing the phone's bezel and home indicator.
